# intraMontes

Preserve and enhance  
the Alto Molise

# INTRAMONTES

## deals with:

- Protecting and enhancing nature and culture, particularly in the Alto Molise area.
- Carry out environmental and socio-economic research and monitoring activities for the protection of the natural, cultural and landscape resources of the territory.
- Carrying out training activities in environmental education and heritage interpretation, especially in parks, nature reserves and other areas of environmental relevance.
- Promote an aware and sustainable tourism, through particular walks and experiences, educational activities and environmental interpretation.
- Create collaborative networks with public entities, individuals, associations, cooperatives, commercial business and all the stakeholders that share the need to protect, enhance and promote the territory.

## Among the many ideas:

- Organize events for the enhancement of nature and culture in an ethical and sustainable way.
- Recovering disused buildings to create a network of museums in different municipalities, by involving the local population.
- To promote the recovery of ancient plant species by facilitating the collection and distribution of precious seeds.
- Organize workshops for the recovery of ancient crafts.
- Promote and activate training courses that involve the professional and personal growth of the new generations.
